Uncle Sam Will Give Chili a Little More Time.

PRES'T HARRISON'S MESSAGE.

Is Will Probably Be Delivered by the Middle of the Week-Chili is Purchasing Munitions of War.

WASHINGTON, Jon. 16. - Doeds, not a This is the position of the in has delivered his last message at one to the government of President fouts. The remaining one will be his best of the for his passport, as minister, thenever congress acts. This is the spect situation as it was developed at eablest meeting Friday.

No satisfactory enswer has been free to his communication early in e weak, when on behalf of the United States he saited for formal disavowal of the Matta insult and for some indiation that the Chilian government in-coded to make reparation for the laltimore outrage. Evanive pro-essions of friendliness have been tendered and that is all. Sec-retary Blaine has kept the path of Oplemacy open, and the diplomacy open, and the minister re-min at Santiage to receive any com-munication which the Montt administratifu may have to make. But this is all. The initiative in anything concilatory that follows must come from the Chilian authorities Will Send in the Correspondence.

It was the understanding at the cabimet meeting Friday that the correspondence would go into congress not later than Wednesday of next week and possibly earlier. The government's investigation into the attack upon the Baltimore's sailors, conducted by Judge Advocate General Semy at San Franeisco, having come to an end there is no reason why the facts thus elicited, which would am to greatly strength-ea the government's case, should not be incorporated in the documents sent to copgress.

The president will, it is understood, take the ground that the outrages were premeditated and participated in by the Chilian police. He will show that the attack was made simultaneously in widely-separated localities wherever an American seaman could be found, one point of attack being separated from the others by 3 miles. The message will be accompanied by a number of photographs showing the character of the location where the sessant occurred, and it will be seen that while some of the seamen were attacked in a disreputable quarter of the town others were set upon in the best residence quarters. It is regarded as highly improbable that these widely separated groups of seamen should all have been drunk and should have brought the attack upon themselves. The correspondence will be accompanied by a statement from the president outlining 's leading features. What specific recom-mendations President Harrison may have to make will depend on the de-velopments of the next few days.

Little Chance of Apology. step toward reparation which Chilian government may make. If it comes to its senses and promtly disavows ex-Minister Matta's diplomatic af-front proper credit will be given for a friendly spirit. Any representation it may make of its intentions to go beyoud the finding of Judge of Crimes Foster and the report of the proen-ratur fiscal will also be noted. But from the present outlook there is so little chance for apology that it is a waste of time to discuss these contingencies.

Will Depend on Congress. The one satisfactory feature which the president will be able to note is the safety of the refugues, due to the yielding of Chili to the demands of the United States. It will not be necessary for the president to ask authority om congresa to withdraw she telnister and break off diplomatic negotistions. He has that power in advance of any declaration of hostilities, but the intention is not to exercise it until sanctioned by congress. Montt Seeking for Delay.

Minister Montt in Washington has redoubled his efforts to secure some modification in the ultimatum of the United States. He has made urgent representations that the present government is doing all that the state of feeling in Chill will warrant it in doing to satisfy the demands of the United States. He is confident that if this country will only wait longer everything will be settled satisfactorily, but the minister himself does net promise apology or the reparation which the United States holds due to 14. He simply indulges in generalities. It is now admitted in high official circles here that Minister Moutt has not been able to give entire satisfaction in enything and his plans for delay are

Chill's War Preparations. That the Chillan government is not remaining idle during the progress of the warlike preparations of this conntry receives substantial confirmation from a cablegram received at the navy department Friday from Rear Admiral Walker at Monte-video. Rear Admiral Walker informs the department that he has just learned the fact that a consignent of 109 Whitehead torpedoes has sed through Montevideo on its way rom England to Valparaiso. This plainly indicates what has been inmated hitherto, that Chill is making fully as active preparations for hostile operations as are being made in this country.

The Society of Loyal Volunteers Would Reduce the Government's Expenditures. WASHINGTON, Jan. 16 .- An attack is to be made on the pension system in this congress by an organization of ex-soldiers known under the name of the Society of Loyal Volunteers. This organization expects to be able to reduce the annual expenditures for pensions from \$138,000,000 to \$38,000,000, or \$50,-000,000 at most. The object of the society is to prevent pensions being paid to any except disabled soldiers. It is claimed that there are thousands of soldiers who are physically able to support large families who are getting pensions. The society would pay pensions only to soldiers who are incapable, from physical disability incurred by the war, to support themselves. The organization had its inception in Washington, but has extended already to several states.

BECAUSE OF RISING WATERS

Rome, Georgia. Inundated and Submerged-Two Men Drowned While at a Funeral in Bosts.

Rome. Ga. Jan 16 -The business part of the city is from 6 to 7 feet un-der water. The weather is bitterly cold, which adds to the discomforts of hundreds of the people who have been driven out of their homes by water. Rome is situated on a fork formed by the junction of the Etowah and Osta-

naula rivers, forming the Coosa. In the heavy rains of the past week the Coosa has swellen so heavily that the waters of the other two rivers have been forced back, gradually creeping up into the city, completely flooding the greater part of it. Friday the wa-ter reached the height of 37 feet, being within 3 feet of the disastrous food of

Removing Their Goods When it became evident that the city would be flooded goods were hastily removed and cotton drayed off to the hill tops. The Fourth ward presented some novel scenes. In many of the stores the water almost reached the second floors, and the little one-story buildings' roofs above alone stuck out The chickens were roosting on the houses. 'The electric light plant is under water. So is the waterworks. Drowned at a Funeral

There was one sad scene. Marion, the little infant daughter of Mr. and Mrs. Jack King, died Thursday, and the burial took place Friday. Services were held at the house on Second avenue. Myrtle Hill cometery was across the Etowah, and the little casket and the friends and the family were carried in boats across the waters. Two negroes who did not know how to manage their cance were drowned.

BINGHAMTON, N. Y., Jan. 16 .- Owing to the present heavy ram which has prevailed for two days, the West Oneita creek has overflowed its banks. Fifty acres of land near Oneonta are submerged. Several barns and out-houses have been swept away.

DEATH OF WALTER A. WOOD. One of the Few Americans Decerat Foreign Governments.

New York, Jan. 16.—Walter Abbott Wood died Friday afternoon at his home in Hoosick Falls, N. Y. He was one of the few Americans who for great service rendered to humanity as an inventor have received title and honors from the crowned heads of

honors from the crowned heads of Europe.

[Mr. Wood was born in Mason, N. H., October 23, 1815. After leaving school in New York, to which state his parents had removed, he learned to be a maker of wagons and plowa, as his father was before him. Having mastered his trade he removed to Heosick Falls in 1835 and there obtained employment as a journeyman machinist, and soon engaged in business in a small way for himself. Until 1835 he carried on the manufacture of plows and machinery castings. In that year and the year following Mr. Wood began the manufacture of mowers, reapsys and binders, for which he invented many improvements. In recognition of his important services to agriculture Queen Victoria knighted him, to agriculture Queen Victoria knighted him, France decorated him with the imperial cross of the Legion of Honor and Austria conferred on him the cross of the Imperial Order of Franz Jo-seph. Mr. Wood always took an active part in politics, but the only important office that he beld was representative from his district in the Forty-sixth and Forty-seventh congresses.

PROHIBITION CONVENTION. The Call for the Meeting Formally Issued

-The Basis of Representation. NEW YORK, Jan. 16.—Notice is given by order of the national committee of the prohibition party that the national convention of that party to nominate candidates for president and vice presi-dent of the United States and to transact such other business as may properly come before it will assemble in Music hall, St. Louis, Mo., June 22 The basis of representation has been fixed as follows:

1. Each state is entitled to four delegates at 2. Rach state is also entitled to twice as many delegates as the number of congressmen which the state is entitled to elect in 1808 (this is the new apportionment).

2 Each state may send one additional dele-

gate for every 100 votes, or major fraction thereof, cast for Firk and Brooks in 1838.
4. Each territory is entitled to two delegates.
The district of Columbia is entitled to two delegates.

GRIP INVADES MEXICO. Hundreds of Deaths Mave Occurred and

the Discuse Is Spreading OTTY OF MEXICO, Jan. 16.—There are aundreds of cases of the grip in this city, and there have been no less than 800 deaths attributed directly to that cause here within the past three weeks. In the states of Oazaco, Vers Crnz and Pueblo the epidemic is very severe and in the city of Origaba the schools have been closed and many deaths occur daily. The common people are the worst suf-ferers and in the mountainous regions the malady is the most severe. fatality among the 1,200 Chinese laborers employed on railroad construction and the coffee plantations in the state of Caxaco has been very alarming. The epidemic is spreading rapidly to the northern parts of the republic.

WORLD'S FAIR FIGURES.

A Summary of the Receipts and Expenditures of the Columbian Expedition to January 1.

Cutcase, Jan. 16 - According to Au ditor William K. Ackerran's figures the total receipts of the Columbian expo-sition to January 1 were \$5,523,518, and the expenditure \$2.647,400. Of the latter amount \$9,101,911 was paid out by the construction department. In the foreign department the auditor's report shows that nearly \$50,000 has been spent in South America, a greater sum than has been disbursed in all other countries combined.

Monument for Confederates.

RICHMOND, Va. Jan 16.- The Virginia legislature has passed resolutions appropriating \$32,000 to furnish a copestone to the private soldiers' and saliors' menument now being erected here. This sahaft, which is modeled after the pilliar of Pompeli at Cairo, is to be composed of thirteen blacks of granite, one to be contributed by each of the states composing the late confederacy.

ath of Judge Thoras J. Larman BENTON, Ill., Jan 16 - Judge Thomas J. Layman, one of the best known land and bond litigators in the United A States and a survivor of the famous

fighting Eighteenth Illinois infantry died suddenly at his home here Friday. Judge Layman had probably litigated more bonds than any other man in Illinois. In one suit he defeated over \$150,000 worth for this county.

WOULDN'T BE SCARED.

Six Hundred Augry Collar Ciris Maher Things Lively in Troy, R. Y. - They Plaster Up the Walls of the Shop with Mud-A Big Strike. Tuor, N. Y., Jan. 14. Six hundre

angry collar girls and 200 or 300 men and boys, employed at the big factory of Cluett, Coon & Co., congregated in front of that building threaten-ing vengeance on the firm and employes who would not join their ranks. The cause of the outbreak was the substitution of starching machines, each of which may throw six or eight girls out of employment. Threatening imprecations were burled at the proprietors and "scabs," as operators of the machines were stigmatized. Some impulsive miss threw a handful of mud at the building. This was the signal for a general fusilade. In less time than it takes to relate it the walls of a trio of shops were fairly plastered up to the second story. The situation grew so serious that the entire police reserve was called out. They did not frighten the girls in the least. The police looked with favor on their cause. It is probable that a general strike among the 10,000 collar girls of Troy will result unless the new starching machines are removed.

Ohio Soldiers' Orphaus.

DAYTON, O., Jan. 16.—The twentydiers' orphans' home shows that there are 900 children at the institution and 505 maintained at the state's expense in twenty-two county homes. Total expense of the state home for the year was \$204,677. An appropriation has been asked for the new year of \$219,-
